Future Sport Horses success

This year's British Equestrian Federation Futurity Evaluation Series, which has as one of its objectives the search for potential Elite sport horses of the future, yielded a unique result for both Future Sport Horses stud and one of their Elite mares Juswith Genoa, dam of the legendary Olympic medallist and triple Rolex CCI**** Winner, Winsome Adante.

Juswith Genoa

The evaluation series assessed young horses from foals to three year old in the three Olympic disciplines of dressage, eventing and show jumping, as well as ponies. Over 550 young horses passed in front of an expert evaluation panel and vet; of them over 170 were event horses.

Finishing top of the table for eventers (all ages) was Juswith Genoa's filly foal Future Gold Digger who was awarded Elite status with a score of 92.5% - the highest score ever awarded to an event foal and the joint highest score ever awarded to an eventer.

Juswith Genoa was also the dam of Future Glamour, a full sister to Future Gold Digger, who was the Highest Graded Event Foal & Champion Event Foal in 2006. Future Sport Horses' Julia Hodkin says, "to own a mare like her is such a privilege, and with Winsome Adante's oldest sibling, Future Genie, now under saddle with event rider Brook Staples it's a very exciting time for Future Sport Horses, especially as we have another four siblings yet to be backed, two of which are already Champions!".

Future Proposition

The highest graded foals to three year olds from the evaluations were also invited to take part in the BEF Elite Championship Show. The eventing discipline was judged by Yogi Breisner who selected another of FSH's foals, Future Proposition, not only as the Champion Event Foal, but also Champion of the Eventing Discipline from across the ages. Future Proposition went on to finish the day as Joint Reserve Supreme Champion across all ages and all disciplines.

This year Future Sport Horses has bred the BEF Highest Graded Eventer in the UK and the BEF Champion Eventer in the UK with two different horses – a truly unique achievement.

Like Future Gold Digger, Future Proposition had already been awarded Elite status as an Eventer by the BEF Evaluation Panel. To then go on to be the 2008 Champion Eventer for the UK was particularly special for FSH owner, Julia Hodkin as Future Proposition represents three generations of breeding by FSH, being by their own young stallion Future Illusion (by Fleetwater Opposition), out of Allercombe Loveday who was also picked by Yogi as the winning Eventing Broodmare.

Future Illusion

Julia not only bred Future Proposition and his sire Future Illusion, but also Future Illusion's dam, the Champion Sporthorse Broodmare, Future Illicit Affair.

Future Illusion already has the incredible record of 100% BEF 1st Premium foals from his first two crops. He is now being referred to as one of the "Hottest Young Stallions in British Breeding". To add a cherry on top of the icing on the cake, FSH are thrilled to announce that they have twin embryos from

Winsome Adante's oldest sibling Future Genie by Future Illusion due in 2009.
